Re: Technical Review Findings
Remedial Study Report (Revision 2) for the Former Coke Plant (January 2021)
Tecumseh Redevelopment, LLC (fka ArcelorMittal Indiana Harbor West), East Chicago, Indiana
Mabbett Project No. R7065000.006.001.003

Dear Mr. Pursel:

Under Contract No. 68HERH19D0019, Task Order No. 68HE0520F0058 and as specified in a Technical Direction Memo dated January 14, 2021, Mabbett & Associates, Inc. (Mabbett®) has completed a technical review of the subject document and the facility's responses to EPA comments dated August 26, 2020. Mabbett's review of the facility's response focused on technical adequacy and potential impacts on the report's conclusions. All responses provided are acceptable and have been properly incorporated into the revised Remedial Study Report, and we have no additional comments. It is our recommendation that EPA approve the report with no further changes.

We appreciate the opportunity to support EPA on this project. If you have any questions or require additional information, please do not hesitate to call or email either of the undersigned.

Very respectfully,

Stephen A. Vetere, PE, LSP, LEP
Task Order Manager
